create drawings and a parts list. The drawings will be submitted for review and approval. Once approved, manufacture of the aid unit begins.

Commissioner Behnke requested a copy of the aid unit drawings.

Lieutenant Kevin Anderson reported that Braun will have a website that can be accessed to see the progress of the aid unit as it is being manufactured. He will notify Consultant Paul Witt once the website is operational.

Notification was received from Verizon Wireless that they will remove/replace antennas, concrete pad and equipment cabinets; and install a new outdoor emergency generator on the north side of Se Petrovitsky Rd, behind and north of the existing King County Fire District 40 fire station parking lot.

Response Operations:

Chief Mark Peterson presented the Fire District 40 Incident Type report for April 2010. The report includes the number of responses by responses type and transport data.

A copy of the Incident Type report is on file with the minutes.

On May 14, 2010 at approximately 1:23 p.m., Engine 17, Aid 17 and Ladder 14 were dispatched to a minor gas driver fire at 15940 SE 176 Street. The fire was extinguished and aid was given to the two residents. Estimated fire loss of dryer and smoke damage is \$2,000.

Office of the Fire Chief:

The Renton Fire & Emergency Services 2009 Annual Report was presented for review.

A copy of the report is on file with the minutes.

Station 17 Repairs

Consultant Paul Witt presented the Board with a follow up memo that addresses concerns from the TCA Architecture Planning report on the remodel of 17. A copy of the memo is on file with the minutes.

Forest Hooker from TCA Architecture confirmed that roof and asphalt replacement does not require a permit. Also, the roof repairs identified in the report would include correcting the drainage issues. If seismic upgrades are not coordinated with the roof replacement, roof decking in the amount of \$3,931 would need to be added to the roofing estimate of \$82,335.

Forest Hooker indicated that seismic work would be easier if coordinated with roof replacement; however, it could still be done post-roof replacement. Additionally, he confirmed that not doing HVAC or radio antenna at the same time as roof replacement would not address reducing roof penetrations.

Forest Hooker mentioned that perhaps some of the insulation identified in their report that has been installed from below might be able to be removed during re-roofing.

The friendly amendment to the tabled **MOTION** from the May 24, 2010 Special Meeting is as follows:

A **MOTION** was made by Commissioner Behnke and **SECONDED** by Commissioner Price to approve the expense of Capital Bond Funds for maintenance and repairs at Station 17, specifically the replacement of the roof and repairs to the asphalt parking lot as set forth in the TCA Station 17 facilities report, which may include related repair items not specifically delineated. Under the agreement between the City of Renton and the District (Section VI, Item F), the District will fund up to \$95,000 for these major repairs (based upon current estimates), coordinated by the City through their Small Works roster. The City shall provide detailed invoices to the District for payment for the repairs and may include appropriate administrative costs incurred for implementation of the repairs. The **MOTION CARRIED. (5-0)**

CONSENT CALENDAR:

- a. Minutes of the Regular Meeting – May 13, 2010
- b. Expense Fund Vouchers No 05015-05025 Amount \$6,988.66

A **MOTION** was made by Commissioner Ryan and **SECONDED** by Commissioner Price to approve the consent calendar as presented. The **MOTION CARRIED. (5-0)**
